Voluntary contributions to the pension fund

Have there been any voluntary contributions to the occupational pension scheme in the last 3 years?

Yes Date of the last contribution

No

If there have been contributions, the resulting benefits may not be withdrawn from the pension in the form of a lump sum (of whatever kind) within the next three years (blocked portion). The unblocked portion may in principle be withdrawn as a lump sum. However, current tax practice must be observed here. If a lump sum is withdrawn within three years of a voluntary contribution, deductibility of the contribution against income tax is not usually recognised. From the perspective of income tax, it may therefore be inadvisable to withdraw a lump sum within three years of making a voluntary contribution. We recommend clarifying the fiscal consequences of an advance withdrawal with the competent tax office in advance.
